Approval Process Specialist Superbadge

Firstly, I have completed both the prerequisites Superbadge Unit for unlocking this Specialist Superbadge and that are being listed below:

(1) Approval Process Management Superbadge Unit.

WOOHOO!

Approval Process Management Superbadge Unit

You've earned yourself the most super of badges, and a ton of points. Now tell the world about it!

+ 2000 Challenge Points
+ 500 Bonus Superbadge Points

(2) Approval Process Troubleshooting Superbadge Unit.

WOOHOO!

Approval Process Troubleshooting Superbadge Unit

You've earned yourself the most super of badges, and a ton of points. Now tell the world about it!

+ 2000 Challenge Points
+ 500 Bonus Superbadge Points

Next, I have completed the Approval Process Specialist Superbadge by completing following two quizzes:

(1) Approval Process Configuration.

1 Which step does a process automation specialist take to enable Chatter for approval processes?

A Add Post to Chatter as an initial submission action.

B Enable Chatter feed tracking for the object the approval is based on.

C Apply the Enable Chatter Approvals permission set for approvers.

D Select the preferred Chatter post template in the approval process configuration.

2 When does an approval action occur?

A When a designated approver reviews and approves or rejects the request

B When all final approval actions are complete

C When the initial submission actions are complete

D When all required approvers have approved the request

3 Which statement about approval process configuration is correct?

A A process instance represents an instance of an approval step.

B Recall actions configuration can include optional record locking.

C Email approvals allow approvers to use custom buttons in the email to approve.

D Users with the "Modify All" or "Modify All Data" permission can edit a locked record.

(2) Approval Process Troubleshooting.

1 Which permission provides default admin approval capabilities to a user?

A Modify Metadata through Metadata API

B Modify All object-level permission for the given object

C Approval Requests

D External Data Source Access

2 Which setting should a process automation specialist review if a delegated approver isn't receiving approval emails?

A The delegated approver's profile

B The delegated approver action

C The delegated approver settings in process definition detail

D The delegated approver's user record

3 Which approval process element can be used to send information to an external service designated endpoint?

A Outbound message

B Email approval response

C Process instance node

D Endpoint connector

Finally, I have achieved the Approval Process Specialist Superbadge, the screenshot of completion is as follows:
